

### § 385.15

chapter, actions normally requiring an EA, but not necessarily an EIS, are modifications to Project Operating Manuals or the System Operating Manual, that do not provide for significant change in operation and/or maintenance.

(d) *Categorical exclusions.* In addition to the activities listed in §230.9 of this chapter, the following actions do not require separate NEPA documentation, either because, when considered individually and cumulatively, they do not have significant effects on the quality of the human environment or because any such effects will already have been considered in NEPA documentation prepared in accordance with paragraphs (b) and (c) of this section. However, the District Engineer should be alert for extraordinary circumstances that may dictate the need to prepare an EA or an EIS. Even though an EA or EIS is not indicated for a Federal action because of a “categorical exclusion,” that fact does not exempt the action from compliance with any other applicable Federal, State, or Tribal law, including but not limited to, the Endangered Species Act, the Fish and Wildlife Coordination Act, the National Historic Preservation Act, the Clean Water Act, Clean Air Act, the Coastal Zone Management Act, and the Marine Mammal Protection Act.

- (1) Project Cooperation Agreements;
- (2) Project Management Plans;
- (3) Program Management Plans;
- (4) Plans and specifications for projects;
- (5) Pilot Project Technical Data Reports;
- (6) Assessment reports prepared for the adaptive management program;
- (7) Interim goals and interim targets;
- (8) Development or revision of guidance memoranda or methods such as adaptive management, monitoring, plan formulation and evaluation, quantification of water needed for the natural system or protection of existing uses, methods of determining levels of flood protection, and similar guidance memoranda or methods; and
- (9) Deviations from Operating Manuals for emergencies and unplanned minor deviations when, considered individually and cumulatively, they do not have significant effects on the

### 33 CFR Ch. II (7–1–15 Edition)

quality of the human environment, as described in applicable Corps of Engineers regulations, including §222.5(f)(4) and §222.5(i)(5) of this chapter, and Engineer Regulation ER 1110–2–8156 “Preparation of Water Control Manuals.”

#### § 385.15 Consistency with requirements of the State of Florida.

The State of Florida has established procedures, requirements, and approvals that are needed before the State or the South Florida Water Management District can participate as the non-Federal sponsor for projects of the Plan. Project Implementation Reports shall include such information and analyses, consistent with this part, as are necessary to facilitate review and approval of projects by the South Florida Water Management District and the State pursuant to the requirements of Florida law.

#### § 385.16 Design agreements.

(a) The Corps of Engineers shall execute a design agreement with each non-Federal sponsor for the projects of the Plan prior to initiation of design activities with that non-Federal sponsor.

(b) Any procedures, guidance, or documents developed by the Corps of Engineers and the non-Federal sponsor pursuant to a design agreement shall be consistent with this part.

#### § 385.17 Project Delivery Team.

(a) In accordance with the procedures of the Corps of Engineers business process described in Engineer Regulation ER 5–1–11 “US Army Corps of Engineers Business process,” the Corps of Engineers and the non-Federal sponsor shall form a Project Delivery Team to develop the products necessary to implement each project.

(b) The Corps of Engineers shall assign, and the non-Federal sponsor may assign, a project manager to lead the Project Delivery Team.

(c) The Corps of Engineers and the South Florida Water Management District shall encourage the participation of other Federal, State, and local agencies and the Miccosukee Tribe of Indians of Florida and the Seminole Tribe of Florida on Project Delivery Teams, and use their expertise to ensure that
